About Me

Fourth-year Computer Science student at the Royal University of Phnom Penh (RUPP) with a passion for web development. Experienced in building academic and personal projects using modern web technologies. Motivated to improve my skills, learn new technologies, and gain practical experience in a professional IT environment

Project Experience

E-commerce Website

Personal Project | React.js, TypeScript, Node.js, Express.js, PostgreSQL, Prisma

- Developed an online gift shopping platform with product browsing, cart, and order management.
- Implemented user authentication and integrated backend APIs with a PostgreSQL database.

JUL NOW – Mobile App UI/UX Design

Academic Team Project | Figma

- Collaborated with a team to design a mobile application interface using Figma.
- Created user-friendly layouts and prototypes with a focus on usability and visual design.

Drone Delivery Project

Academic Team Project

- Collaborated with a team to design and build a drone for delivery purposes.
- Explored and applied AI technology to support the drone development process.
